MARL Study Supply
Needs - PHX ...

Dear Valerie and Denise,

Finally I checked the numbers. They look good to me. We can place an order.

Thanks Maria

Subject: Verify Quantities

Maria:

I spoke with Denise this morning about getting the second shipment of cigarettes for the PHX site for the MARL FF studies. Just to make sure I've calculated quantities correctly for her, could you please just double-check the attached and let me know today/tomorrow if any changes needed? This reflects the assumption of trying to have enough product at PHX for 150 subjects smoking up to 40 cpd. (The quantity already at Precon will be used only for the LNK site unless we decide otherwise).

Let me know if questions.

Thanks,
Valerie
